

AM Stats: China' alumina inventory up sharply by 249% MOM in late Jun

BEIJING (Asian Metal) 11 Jul 18 - According to Asian Metal Database, Chinese alumina producers held about 122,000t of inventory in late June 2018, up sharply by about 249% MOM but down by 76% YOY.

Based on the data, alumina producers in Guizhou and Guangxi held about 40,000t and 30,000t of stocks in late June respectively, however they hold no stocks in late May. The inventory of alumina in Henan was around 30,000t, unchanged month on month, while that in Shanxi was about 10,000t, up by 100% from May. Alumina producers in Shandong saw inventory of about 10,000t in late June, but didn't held any inventory in late May.
