

Chinese aluminum fluoride export volumes edge up by 4% MOM in July

BEIJING (Asian Metal) 26 Aug 15 - According to China Customs, China imported around 13,000t of aluminum fluoride in July, up by 4% MOM. From January to July, Chinese aluminum fluoride export volumes reached 96,400t, up by 6.8% YOY.

Chinese aluminum fluoride export by month (10,000t)

In July, Chinese exports to the US and Bahrain climbed up by 83.3% MOM and 100% MOM to around 2,750t and 1,020t respectively. However, the volumes to Russia and Australia dropped by 24% MOM and 27% MOM to around 4,560t and 906t respectively in July.

Chinese aluminum fluoride export volumes by major countries (ton)

From mid-August, Chinese RMB began depreciating, which may promote the export market. The price gap between the Chinese domestic market and the export market will enlarge. Chinese exporters may

increase deals in the export market from late August.
